**Section-A (Reading)**

**Q.1 Read the following passage and answer the questions on the basis of comprehension of the passage.**

Shyam Prashad Rajasekaran, a young entrepreneur (who is the founder of Veg route) says that his thought behind the formation of Veg route is to encourage farmers and help them get economical prices for their produce. Veg route is an app which helps farmers to connect directly with customers without any mediators. This helps farmers to get the right price for their crop and this also helps customers. In addition to this Customer always demand for the fresh and best quality products which is also satisfied with the help of this app. And Shyam Prasad came up with this idea as he could see the difficulty faced by the farmers in his own family, as his grandparents were also farmers. In 2020, during covid pandemic Shyam observed how farmers are getting affected due to pandemic and he started to work upon it and learnt more about their problems. As a part of that, he went to Coimbatore and met a few farmers. Firstly, he discussed problems faced with these farmers and decided to create an impact on agricultural technology. So, he started Veg route in July 2020 with his friend Anand Alagarsamy. Secondly, he started the company with 23 customers and now it has developed over 1500 farmers who have become a part of Veg route. Including Coimbatore, Veg route now is functioning in 6 more districts. They are Chennai, Madurai, Tirupur, Tuticorin, Bengaluru, and Goa. It is soon planning to get launched in Kanyakumari, Mumbai, Nashik, Hyderabad, Virudhunagar, and Delhi (NCR). Veg Route is an app in which agro products are taken from a direct farm place, given to the customer with the fresh produce, and immediate cash provided to farmers. The main concept behind founding Veg route is to eradicate the middleman concept in the supply process. This company goes directly to the farm, checks the quality and delivers them freshly to the customers. Perhaps the Veg route has been a good source of employment and created employment opportunities for many unemployed individuals. Finally last month, this startup raised over \$125,000 from a fintech startup company.

To live in harmony with oneself and the environment is the wish of every human. However, in modern times greater physical and emotional demands are constantly placed upon many areas of life. More and more people suffer from physical and mental tension such as stress, anxiety, insomnia, and there is an imbalance in physical activity and proper exercise. This is why methods and techniques for the attainment and improvement of health, as well as physical, mental and spiritual harmony, are of great importance, and Yoga meets this requirement. The word "Yoga" originates from Sanskrit and means "to join, to unite". Yoga exercises have a holistic effect and bring body, mind, consciousness and soul into a balance. In this way Yoga assists us in coping with everyday demands, problems and worries. The exercise levels have been worked out in consultation with doctors and physiotherapists and can therefore — with observation of the stated rules and precautions — be practiced independently at home by anyone. "Yoga in Daily Life" is a holistic system, which means it takes into consideration not only the physical, but also the mental and spiritual aspects. Positive thinking, perseverance, discipline, orientation towards the Supreme, prayer as well as kindness and understanding form the way to Self-Knowledge and Self-Realisation.

IN July 1976, my wife Mary, son Jonathan, 6, daughter Suzanne, 7, and I set sail from Plymouth, England, to duplicate the round-the-world voyage made 200 years earlier by Captain James Cook. For the longest time, Mary and I — a 37-year-old businessman — had dreamt of sailing in the wake of the famous explorer, and for the past 16 years, we had spent all our leisure time honing our seafaring skills in British waters. Our boat Wavewalker, a 23 meter, 30-ton wooden-hulled beauty, had been professionally built, and we had spent months fitting it out and testing it in the roughest weather we could find. The first leg of our planned three-year, 105,000 kilometre journey passed pleasantly as we sailed down the west coast of Africa to Cape Town.
